This is not your typical Backscatter photo expedition. Our new “Backpacker Series” of trips are professionally crafted to focus more on the adventure and less on dive, shoot, eat, repeat. We’re basically getting back to our roots when we considered meeting the locals and exploring land equally important to a well-appointed underwater camera room or finding the next underwater critter. Our best images have come from spontaneous adventures like these. Some of the best moments in our lives occurred when we put the camera down and just experienced a new adventure. If this speaks to you... this is the trip for you.
