

## Should CenCal Sink or Swim?

Declining participation has led present and past officers of CenCal to question its continuance. *To keep CenCal going, we need increased participation.* If you'd like to see CenCal continue, please read below.

Over the past few years, CenCal has moved from a widely active organization combating access issues to a legislative (CA Fish & Wildlife issues) and very active underwater team sport organization. In support of our member clubs and u/w sports, CenCal provides affordable liability insurance.

But, without active participation by members, we will lose not only our liability insurance but also a collective voice with California Fish & Game, the legislature and the ability to efficiently host club and team events.

### To keep CenCal afloat, we need the following roles filled now and in the future:

- **President**—Preside at meetings
- **Secretary**—Set up meetings; take & distribute minutes
- **Treasurer**—Deposit paper checks; pay bills; coordinate insurance; file annual CA & IRS statements
- **Membership**—Maintain a membership list
- **Web master/Social Media**—Maintain website; establish social media; transfer PayPal funds to checking account

**Please think about how CenCal helps you and what you can do to continue it.** Contact us if you would like to volunteer:
